

## Nabors Job Fair

Lori Borick was here @ 4:00 yesterday and gave me a bunch of fliers for this job fair on the South Side (attached.) They have job postings for these on Job Gateway: #6714435, #6555514, and #6555496 all in Indiana Co. The candidates may have to travel to different locations in the region but, as you know, this industry is paying people very well. She did not recall the name but said they just hired someone from CWDS and they're obviously looking for more-- **50 people**, actually. They need all classes of CDL licenses and she's been in contact with All-State. I'm going to search through WIA and CWDS for candidates but if any of you has someone specific in mind, please let them know about the job fair, send me their resume and I'll forward directly to Lori. *(Added: The one this is that they only need to have a permit for the CDL and then they will train them on it. )*
